Fannie Belle -

Stole Lee's money when she was living with him and Lee was courting Mable. Lee was scheduled to take ~~the~~ Mable and her friend Smitty ~~McCarte~~ out. Lee was quite concerned and called Mable with the news of his money for the date being gone. Mable ~~and~~ gave him some money so he could take them out. d. 1935 in Merced, CA.

Lee Webb ~~hated~~ his father. ~~After John~~ Lee was kicked by a ^{disliked} horse when he was 18 and swore at the horse. John picked up a 2" x 4" and threatened to teach Lee not to swear. ~~He~~ He came at Lee but (assumedly because Lee was larger) stopped before actually striking Lee. Lee told him, "If you do that again, I'll kill you!" Soon after this incident Lee left home.

Lee played semi-pro baseball (catcher). Took a ball in right eye while playing in an exhibition game in Central Butte, ~~Idaho~~ ^{Sask.} (think they were home team). Didn't have mask on and first pitch was fouled into his eyes. Lee also played semi-pro hockey. ~~Also~~ Also took a hockey puck to the right eye. As a result of the two eye injuries, lens was dissolved and he was functionally blinded in right eye. In 1960's found that the vision could be repaired but "lazy eye" was so strong at that point that he didn't think it was worth doing.

In 1923 worked at Ford plant in Detroit. Drilled hole in carrier bearing pillow block for grease zerks.

Quit chewing tobacco while in Detroit because he had to turn and spit before he could greet his girlfriend and her mother when he happened upon them on the street. He was so embarrassed that he quit chewing.

Lee lived in San Bernardino as elevator operator sometime between 1923 and 1930. Had girlfriend named Lorna that he proposed to. ~~They~~ They didn't but after he married Mable he was concerned that Lorna would sue him for breach of marital contract.

Lee had a 6th grade education but his secret desire was to become a physician.

Lived in Hollister/San Juan Batista area after San Bernardino. Worked as day laborer in fields.

bef. 1930 Moved to Merced to work at Cal-Pac (peach packing plant) as a foreman.

Aunt Frances was in ^{Merced} hospital and ~~Mable~~ Lee met Mable (nurse) when visiting. Later when Lee was in hospital for appendix removal. (maybe been first)

when he came to Mable was massaging his hands - and they started dating soon after. On second or third date Mable told Lee she couldn't see him any more because she couldn't marry a non-Adventist. Lee went to SDA pastor to see why Mable was so sweet. Lee took Bible Studies of his own volition. They were married on Lee's 30th birthday (7/30/30) at 10:30 am maybe at Larson house in Chowchilla.

Jack in '32. Verda in '33. Verda was a twin but one twin was miscarried early on in the pregnancy. Lynn in '35, Fred in '41. ~~Invested~~ Invested all of their money in children and in '32 lost it all and had to move in with Mable's mother in Chowchilla. To add insult to injury, their suitcase with Jack's diapers and clothes fell off the car somewhere in the trip so they had nothing for Jack to wear and no money to buy any.
